

ES-DOC

W.I.P @ 08-06-2016

links: splash-page, wordpress

CIM2

Design methodology is mature

Schema is maturing

activity, designing, drs, platform, science, shared, software

links: schema, pyesdoc

CMIP6 Common

Citations

Project

Responsible Parties

Migrated from CMIP5 where possible

Creation options: questionnaire, pyesdoc

CMIP6 Experiments

Charlotte Pascoe - spreadsheet author

Spreadsheet is approaching completion

Documents available in ES-DOC search front-end

links: [spreadsheet](#), [workflow](#), [search-fe](#), [viewer-fe](#)

CMIP6 Models

Model CMIP5 controlled vocabulary being upgraded

New design methodology

For each realm a realm expert will co-ordinate

CMIP5 —> CMIP6 mappings

Creation options: questionnaire, pyesdoc, ipython

links: workflow, specialization, mind map, comparator

CMIP6 Simulations

cdf2cim utility will auto-document simulations

David Hassle - cfPython expert

Utility leverages pyesdoc

Utility to be run post esg-f publication

Status = prototype

Forcing resolution a priori ???
